DRY GOODS MARKET.

DRY GOODS MARKET.

New York, January 28.—The dry goods market showed a steader rone during the day. Retailers and jobbers say they are doing a moderate business for the season, while some large stores are conspicuously active. Cotton yarns are lower. Cotton goods rule fairly steady. Woolens and warsteds are being ordered conservatively. Raw wool is more active in the local market.

On the other hand the small dealers were equally positive that the packers are only "talking big," and that if the boyeott continues concessions in

are only "talking big," and that if the boycott continues concessions in wholesale prices must come.

The family trade in meats throughout the city continues to dwindle, and prices continue to fall in consequence, but as beef goes down fish goes up.

Resentment against the increase in the cost of living has thus far mainly centred upon the packers, but an independent investigator came out with figures to-day which tend to show that in better classes of trade at least the retailers absorb the larger share of the profits, leaving to the packer only what he can make on the sale of byproducts.

said, and the disagreement among the Circuit Courts of Appeal has made a chaotic condition in the law. No lawyer is ever able to advise his client definitely as to the law, because of the nine co-ordinate courts of equal jurisdiction.

Mr. Poole, of Chicago, showed the committee the trouble his firm has had in just one case where infringement had taken place in seven circuits. In each circuit the infringer had to be prosecuted. The infringers started up in business in the different circuits for the purpose of trying out the courts in those circuits, he said. His cilent had been put to the expense of \$55,000 in this expensive litigation, he declared, and all but the first suit could have been obviated had there been a patent Court of Appeals.

Explains Provisions of Bill. Hester's Statement.

New Orleans, La., January 28.—Secretary Hester's statement of the world's visible supply of cotton, issued to-day, shows the total visible to be 4,896,608, against 4,968,625 last week and 5,669,308 last year. Of this the total of American cotton is 3,683,608, against 3,752,625 last week and 4,834, 308 last year, and of all other kinds, including Egypt, Brazil, India, etc., 1,213,000, against 1,216,000 last week and 1,085,000 last year. Of the world's visible supply of cotton there is now afloat and held in Great Britain and Continental Europe 2,610,000, against 3,231,001 last year; in Egypt, 25,000, against 304,000 last year: in India, 567,000, against 331,000 last year, and in the United States, 1,495,000, against 1,743,000 last year.

patent Court of Appeals.

Explains Provisions of Bill.

Mr. Steuart, of Baltimore, explained to the committee the provisions of the bill, which provides for the appointment of but one additional justice. The other four are to be designated by the Chief Justice of the Supreme Court of the United States from among the circuit judges. He stated that fully half of the work of the circuit judges is in patent law, although the judges is in patent law, although the number of cases is but about one-sixth of the total number filed in those

of the total number filed in those courts.

Joseph Edsen, S. T. Fisher and W. F. Rogers, of Washington, made short talks, showing to the committee the cagerness of the bar of the nation for the passage of the bill. Even on the Pacific coast, declared Mr. Edson, the patent lawyers want the court established, although it will compel them to travel thousands of miles to try out their cases finally.

Pwenty School Children Have Narrow Escape in Singular Accident.

- Escape in Singular Accident.

Andover, O., January 28.—A bob-sled carrying twenty school children was struck by a fast Lake Shore and Michigan Southern passenger train on North Main Street to-day and carried upwards of 200 feet upon the pilot of the locomotive until brushed off by an engine standing upon a side track.

Not one child was killed, and none is thought to be seriously hurt.

Those indured were: Those injured were: Mabel Thompson, thirteen years old,

face cut.

Myra Fenkell, eight years old, head bruised. Dan Goomey, fourteen years old, bruised.

bruised.

Sled on Engine Pilot.

The children live in Andover township and each day are brought to the public school here. The convexance is driven by W. L. Pendleton. When he neared the track Pendleton noticed the train, but, instead of stopping, whipped the horses to speed them ahead of the train. The bob slid up onto the pilot of the passenger engine, and with the team of horses dragging on one side and the sled on gine, and with the team of horses dragging on one side and the sled on the other they were carried until the sled was crushed between the passenger engine and the other locomotive standing on the slding.

Pendleton, the driver, was uninjured. One of the horses was hurt and had to be shot.

A majority of the children were in the bob when it was crushed between the two engines, but all miraculously escaped death or fatal injury.
